For Immediate release

Miami County Public Health COVID-19 Update

Miami County - Over the past week, from June 19, 2020-June 26, 2020, Miami County is reporting 21 new COVID-19 cases and no new hospitalizations. This brings the total number of COVID-19 cases for Miami County to 418.

As the economy continues to open up Ohio, like many other states, have started to see positive COVID-19 cases increase. MCPH would like to remind everyone about the importance of continued safety practices. Now that people are going out and interacting with others, it's even more important that we follow safety guidance. Be cautious when you go out, practice safe social distancing of at least 6 feet and wear a mask/face covering to help limit the spread of the virus. Most importantly, if you are sick or if someone in your home is sick, please stay home and don't attend social gatherings.

MCPH will continue to work to keep the community safe and informed as the economy reopens and the COVID-19 situation evolves in Miami County.
