

April 30, 2021

**For Immediate Release**

**Miami County Public Health COVID-19 Update**

**Miami County-** Miami County has moved to an Orange #2 COVID-19 risk level. This is due to Miami County meeting criteria for three of the seven Alert Indicators. Miami County is no longer considered a high incidence area as cases are now below 100 per 100,000 people for a two-week period. Indicators met include:

- 50+ cases /100,000 population within last two weeks
- More than 50% of new cases are from non-congregate care living
- COVID-19 like Emergency Department Trajectory increase over a 5-day period

The Orange #2 COVID-19 Risk level indicates increased exposure and spread of COVID-19. Community members are advised to exercise a high degree of caution. For more information on the Public Health Advisory System visit: <https://coronavirus.ohio.gov/wps/portal/gov/covid-19/public-health-advisory-system/>

Since April 16<sup>th</sup>, 2021, there have been 104 new COVID-19 cases which brings the total number of cases in Miami County to 10,629, with 566 hospitalizations, 215 deaths, and 10,236 presumed recovered.

Next week, Miami County Public Health will be hosting three open COVID-19 vaccine clinics. Clinics will be at the MCPH COVID-19 Vaccine Clinic site located at the Troy Business Park at 880 Arthur Dr. in Troy. These clinics will offer the Moderna vaccine to anyone age 18 or older. Those interested in getting a vaccine can walk in during clinic hours or register for an appointment online.
